Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A keyboard for a computer system which comprises
a housing that defines a media feed path;
an external port on the housing for connecting the keyboard to a separately housed
computer via a connector;
a pagewidth printer arranged in the housing operatively with respect to the media
feed path to carry out a printing operation on media passing through the feed path; and
a feed mechanism arranged on the housing for feeding media through the feed path.
2. (Original) A keyboard as claimed in claim 1 in which the housing is generally
rectangular and defines an input slot in one side of the housing and an exit slot in an
opposite side of the housing, with the media feed path positioned between the slots.
3. (Original) A keyboard as claimed in claim 1, in which the printer includes a
pagewidth printhead and an ink distribution arrangement positioned on the pagewidth
printhead to supply ink to the pagewidth printhead.
4. (Original) A keyboard as claimed in claim 1, in which the feed mechanism includes
an endless belt that is positioned along the media feed path such that the media feed path is
substantially planar, and a roller assembly to drive the endless belt.
5. (Currently amended) A computer system comprising:
a computer;
which includes a keyboard as claimed in claim 1; and
a connector connecting the computer to the keyboard.
